He is banking upon taking in enough at the "gate" to pay off Willard and also bempsey, the cost of the arena, advertising and all the other expenses incidental to the bout, and we believe he will succeed, for the very good ruson, Aunt Eleanor Ann, that there are at least 7.114.127 persons in this country who would pay a good fat price in the hope of seeing Willard flattened by the Dempsey steam roller. My, but the size a popular man!

THE Gibbs boxing bill is still being hammered about by the Solons Albany. When it emerges from the committee rooms its own authof probably will not recognize it. But it looks like a safe bet that Thirty-five Gunners Comto New York to Close Ar- there will be some sort of boxing law passed at the present session. Sentiment has grown in tavor of boxing since the war--not because there was rangements With Rickard a wild stampede of pugilists to the recruiting offices when fighters were needed-but because boxing was a legitimate factor in military training.

Plenty of responsible people want to see boxing restored in New York the past few days has kept the state, but not on the basis on which it existed when Governor Whitman week-end shoot of the New York Athfor the past less done the see abolished it. The game had fallen into the hands of get-rich-quick men letic Club over its Travers Island traps their minds at rest by reaching this and the officials whom Whitman had appointed to have charge of it, were, yesterday. ely this morning. Dempsey is said to to say the least, incompetent. It would be far better to let the game rest speeding eastward and before night in its tomb than to revive it under anything like the old auspices.

The one man commission idea set forth in the Gibbs bill should work, 96 out of a possible 100 targets. The provided that the right man could be found. He must be a man who knows high handicap went to R. S. Smith, the game thoroughly and a man whose integrity is unquestioned. Other-the game thoroughly and a man whose integrity is unquestioned. Harry Sullivan was the Jack Kearns, manager of Dempsey, sis in a jubilant mood last night as he announced that he was in receipt of a telegram from Dempsey saying that the hallest Excelsior Springs, near kanss City, on Saturday morning and that he would arrive in New York Monday morning.

It is possible that the new boxing law would permit decisions. That is highly desirous, but that at the same time it would be dangerous unless

extreme caution is used in the selection of referees. With decisions there will be betting. The Boxing Commissioner will have to see to it that refcrees are appointed who cannot be tampered with. There are several taken referees of this type in the city and the state.

The return of the boxing game will be entirely in the hands of the scored Boxing Commissioner. If he is a man of force and honesty it will prosper. If he is a politician or a selection of the get-rich-quick boxing promoters the game has not a Chinaman's chance.

AN EPIDEMIC OF PROSPERITY

The boxing game seems to be suffering at present from an epidemic of large purses. Tex Richard is offering Jack Dempsey \$27,500 for a possible ten rounds and Jess Willard \$100,000. It has been announced that Benny Leonard, the lightweight champion, has been offered \$100,000 for four fights or a trip to Europe. When you consider that the average money paid for real young American fighters to go to Europe was something like \$30°a month the purses paid to the hothouse fighters seems considerably out of proportion.
